Introducing the Motorized Solutions PerfectFit series.

PerfectFit takes a holistic approach to window treatment concealment. If attention to detail is your pursuit, then PerfectFit is your solution!

Mud in Solutions for Roller Shades

The PerfectFit Mud in Solutions for Roller Shades system has been designed to finish the edges of a custom pocket application.

Typical Results Using Recessed Pocket or Standard Flap and Hanger

Double metal edge

Uneven gaps from wavy drywall

Corners that are not square and level

Install Shades to Perfection in Minutes

- The integrated bracket eliminates the need to install the shade bracket.
- No leveling of hangers to match ceiling line. The hanger is integrated into the pocket extrusion.
- Mud in Pocket pre-made Inside and Outside corners connect, and are seamless once mud in.
- Mud in End Caps ensure every opening is finished square.

Easily cut and trim the pocket with a standard miter saw

- Mud in Pocket was designed modular, allowing the pocket to be disassembled so that it can be cut without the need of a large saw.

Mud In Pocket

Mud In Pocket

A Simplistic Shade Pocket System

- Integrated flap hanger reduces installation time.
- Integrated bracket centering guides eliminate the need to center the shade in the pocket.
- Mud in end caps complete the fit and finish.
- 90 degree inside and outside corners.

Mud In Pocket Junior

Mud In Pocket Junior

A Mud in Pocket System For Dual Shades

- Integrated flap hanger reduces installation time
- Large Profile For Dual Systems
- Modular Design Allows The Pocket To be Easily Cut
- Mud in end caps

Mud In Pocket Max

Mud In Pocket Max

A Bespoke Versatile Mud in Pocket System

- Integrated flap hanger reduces installation time
- Custom depths from 5" to 20" in 1/16" increments
- Custom heights from 5" to 20" in 1/16" increments
- Custom mud in end caps

Mud In Pocket Sleeve

Three Available Configurations

Mud In Pocket Sleeve

Reduce Installation Time!

- You are guaranteed to have the proper depth using the PerfectFit MIH corners
- No leveling of hanger
 - The hanger is installed during construction. Simply hook on the flap
- No more mitering or feathering of the flap at the corners to compensate for out of square cavities
 - By using the PerfectFit MIH corner, you are guaranteed a perfectly square edge
- By having the builder construct the cavity with solid plywood or MDF along the top, simple wood screws can be used to anchor the shade brackets, eliminating the possibility of blocking not being in place

Various sizes available

- MIH connects together to seamlessly form any width
- The hanger is designed for Lutron 2", 3", and 5" flap
- The corners are available in 3.5", 4.75", 6", and 7" depths
(custom sizes are available upon request)

Mud In Hanger

Mud In Hanger

Optional return corners available in 3.5", 4", 4.75", 6", 7" and in custom sizes

Optional rear mud in flange

Extrusions in 8 foot and 16 foot lengths seamlessly butt together to create lengths as needed.

Recessed Drapery Track Cavity

DEL's recessed Drapery Track Cavity (DTC) system will ensure a clean finish to the ceiling with attention to detail.

DTC has been engineered for function.

The system provides a perfectly contoured recess for your motorized drapery track and allows for a true, uninterrupted, floor-to-ceiling drapery.

Recessed Drapery Track Cavity

Recessed Drapery Track Cavity

Recessed Drapery Track Cavity

A Mud in System For Concealing Side Channels

- 2.5" Depth ensures fabric retention
- Side channel inserts after drywall installation to eliminate construction debris damage.
- Conceals unsightly metal side channels from view

Mud in Side Channel

MOTORIZED SOLUTIONS PARTS: MUD IN POCKET

PerfectFit
Mud in Pocket

*A mud in pocket system with integrated bracket. Mud in Pocket ensures a clean transition from the drywall ceiling edge to the shade cavity.

PerfectFit
Mud in Pocket End Cap

*A mud in end cap for the Mud in Pocket system.

PerfectFit
Mud in Pocket Regular Roll
Inside Corner or Reversed Roll Outside Corner

*A perfect 90 degree inside corner used where shades meet, eliminating the need to miter the pocket.

PerfectFit
Mud in Pocket Reversed Roll
Inside Corner or Regular Roll Outside Corner

*A perfect 90 degree outside corner used where shades meet, eliminating the need to miter the pocket.

MOTORIZED SOLUTIONS PARTS: MUD IN POCKET JUNIOR

PerfectFit
Mud in Pocket Junior

*A mud in pocket system engineered for smaller shades. The mud in design ensures a crisp, clean transition to the drywall ceiling.

PerfectFit
Mud in Pocket Junior End Cap

*Mud in end caps for the Mud in Pocket Junior system.

PerfectFit
Mud in Pocket Junior Regular
Roll Inside Corner or Reversed
Roll Outside Corner

*A perfect 90 degree inside corner used where shades meet, eliminating the need to miter the pocket.

PerfectFit
Mud in Pocket Junior Reversed
Roll Inside Corner or Regular
Roll Outside Corner

*A perfect 90 degree outside corner used where shades meet, eliminating the need to miter the pocket.

MOTORIZED SOLUTIONS PARTS: MUD IN POCKET MAX

PerfectFit
Mud in Pocket Max

Mud in Pocket Max. A mud in pocket systems designed for dual and large shades.

PerfectFit
Mud in Pocket Max End Caps

Mud in End Caps for MIP Max.

MOTORIZED SOLUTIONS PARTS: MUD IN POCKET SLEEVE

PerfectFit
Mud in Pocket Sleeve With Hanger

The flap side of Sleeve.
The pocket system that is available in custom sizes
and multiple configurations.

PerfectFit
Mud in Pocket Sleeve No Hanger

The non-flap side of Sleeve
The pocket system that is available in custom sizes
and multiple configurations.

PerfectFit
Mud in Pocket Sleeve End Caps

Mud in End Caps for Sleeve.
The end caps are available in custom sizes.

MOTORIZED SOLUTIONS PARTS: MUD IN HANGER

PerfectFit
Mud In Hanger (accepts flap)

*Creates a perfectly clean line when recessing shades into the ceiling. Eliminates the need for pocket or flap/hanger

PerfectFit
Mud In Hanger corner

*A perfect 90 degree corner when combined with the above product

PerfectFit
Mud In Hanger Inside and
Outside Corners

*Shades butting in a corner? Create a PerfectFit intersection without the need to miter pockets using these components.

MOTORIZED SOLUTIONS PARTS: MUD IN DRAPERY TRACK CAVITY

PerfectFit
Recessed Drapery Track Cavity

*Seamlessly allows drapery tracks to be recessed into the ceiling

PerfectFit
Recessed Drapery Track Cavity Bend

*Radius bend for recessed cavity

PerfectFit
Bendable Drapery Track Cavity

*This is a two-piece bendable PerfectFit cavity that allows you to create custom curves and bends

MOTORIZED SOLUTIONS PARTS: MUD IN DRAPERY TRACK CAVITY

PerfectFit
Recessed Drapery Track Ends

*Motor and idle end for the above

PerfectFit
DTC Inside Corner Ends

*Drapery Track Cavity ends for inside corners. Available in Motor to Motor and Idle to Idle configurations.

PerfectFit
DTC Tandem Ends

*Drapery Track Cavity ends for tandem and inline applications. Available in Motor to Motor and Idle to Idle configurations.

PerfectFit
DTC Inside Mount Ends

*Drapery Track Cavity ends for inside mount applications where the track will butt to a vertical surface, requiring no mud flange be used on the outside edge.

MOTORIZED SOLUTIONS PARTS: INSTALLATION TOOLS

PerfectFit
Drapery Track Cavity
Centering Tool

*This tool is used to help center Lutron drapery tracks

PerfectFit
Drapery Track Cavity
Dimension Tool

*This tool is used when installing custom curved Drapery Track Cavities to ensure even track spacing.

PerfectFit
Mud in Pocket Drilling Guide

*The Mud in Pocket Drilling Guide ensures the proper angle when drilling the pilot hole for the bracket set screw.

PerfectFit
Mud in Pocket Spacer Block

*The Mud in Pocket spacer block tool squares the pocket during the installation.

About Us

MOTORIZED SOLUTIONS

Motorized Solutions is proud to offer the most innovative window treatments in the industry since 1976.

Founded in the 1940's as an exclusive custom upholstery company, we have the ingrained passion to perform each project with precision. Our strive for perfection has enabled us to become Lutron's premier residential dealer and the first window treatment dealer inducted into the Lutron Hall of Fame.

Our MISSION

Motorized Solutions is committed to providing our clients with the most innovative, high-quality automated window treatments in the industry, coupled with a superior customer service experience.

- We are guided by core values that are shared by every member of our team
- We are dedicated to building long-term client relationships
- We will help inspire, educate, and problem solve for our clients
- We value the trust our clients have placed in us and continuously strive to exceed their expectations
