

# Lutron PerfectFit Bendable Drapery Track Cavity Instructions Supplemental

Please use this guide in conjunction with the PerfectFit straight cavity instructions guide

Congratulations on your purchase of a specialty system from Motorized Solutions.

If you have any questions, please call technical support at 1-866-446-6867

or email us at [info@motorizedsolutions.com](mailto:info@motorizedsolutions.com)

## Important Notes - Please Read Before Installing

### CAUTION: RISK OF FALLING OBJECTS

Securely install the system per the mounting instructions. Failure to do so could result in injury.

All mounting surfaces must be level.

Perfect Fit and hardware are to be anchored into wood blocking. If wood blocking is not available, you must use appropriate fasteners (not included) to support the weight of the system and load.

Pre-drill all holes with the appropriate size bit.

### TOOLS REQUIRED

Pencil, Tape Measure, Powered Screwdriver, Drill, Level, Rasp, Drill bits.

## Step 1 - Blocking

Install wood blocking between the joists in the areas that will be receiving the PerfectFit recessed cavity.

## Step 2 - Drywall

Install the drywall over the joists.

## Step 3 - Draw The Track Outline

Draw the outline of the drapery track on the ceiling. Add an additional 1/4" to both sides of the radius.

### Step 4 - Cut The Drywall

Cut out the drywall along the traced line.

### Step 5 - Install The Cavity

Place both sides of the PerfectFit bendable drapery track cavity inside of the drywall.

## Step 6 - Install the Anchoring Spacers

Install spacers, skipping 2 to 8 tabs between each. The base of the spacer separates the two sections of bendable cavity to an exacting width of .1025" while anchoring both sides of the cavity

## Step 7 - Test The Fit

Install screw anchors through the spacers to partially anchor the cavities.  
Insert the track to test fit the shape.

**PerfectFit**

## Step 8 - Install Screws

Install screws into the mud flanges

 **PerfectFit**

Note: When installing the track into the cavity, it may be necessary to remove spacers that align with track mounting brackets.

Installation of the bendable PerfectFit Cavity is complete.  
Please proceed to the standard straight DTC installation instructions to complete your system.
